VOL. XXVI, NO. 102 GAINESVILLE, FLORIDA, SATURDAY, JUNE 5, 1909 TEN CENTS A WEEK

SENATE CUT SALARIES IN ALL DEPARTMENTS

Many Amendments Offered When the General Appropriation Bill Was Taken Up.

TALLAHASSEE, June 4.—The Senate majority yesterday broke the blockade which has obstructed consideration and passage of the general appropriation bill.

Unusual dispatch characterized the consideration of the measure, which after being so amended as to curtail the appropriation for salary expenses of the State government for the next two years was passed to third reading. Nearly all the morning and part of the afternoon were taken up with this bill.

One of the most important items included is that appropriating $10,000 for improvement of the State rifle range at Black Point, near Jacksonville, which was won after a stiff fight by Senator Buckman.

The Cash bill providing changes in the present primary law was passed. This measure is believed to be wholly unconstitutional, and it is very likely that the Governor will veto it.

A bill vesting the State Board of Health with the power to take charge of glanders and infectious diseases of animals was passed. The recent epidemic of glanders in the Cook stables in Jacksonville is said to have been responsible for the passage of the bill.

The Senate agreed to the House amendment to the race track betting bill. "It seems the best we can do," said Senator Sloan. Senator Humphries spoke along the same lines. Senator Buckman objected to Senator Sloan's explanation going on the journal because of its wording, while he expressed full faith in the honesty of Senator Sloan.

The Appropriation Bill.

When the Senate took up consideration of the State expense or appropriation bill it was gone over line by line and some reductions made. Senator Johnson introduced the majority of the amendments.

An effort was made to reduce the salary of the Governor's private secretary from $1,500 to $1,200, but this failed.

The salary of the chief clerk in the Secretary of State's office was reduced from $1,800 to $1,500.

In the Comptroller's office a special clerkship drawing $1,200 was cut out, the stenographer and typewriter was cut from $1,200 to $1,000, and the bookkeeper in the tax redemption department from $1,500 to $1,200.

The item of postage, stationery and incidentals in the State Treasurer's office was trimmed from $1,000 to $500 a year.

The salary of the assistant chief clerk in the Superintendent of Public Instruction's office was made $1,200, instead of $1,500.

The clerk hire in the prison department of the Commissioner of Agriculture's department was reduced from $1,800 to $1,500.

The salary of the State Chemist was slashed from $2,500 to $2,000, and his traveling expenses from $1,000 to $500.

The salary of the Adjutant-General was reduced from $2,500 to $2,000.

Senator Buckman offered an amendment, including an appropriation of $10,000 for lawns, sewerage and various other improvements needed at the State rifle range at Black Point, near Jacksonville.

Senator Buckman spoke for the amendment, and so did Senator Crill.

Senator Harris delivered a forceful and eloquent address in support of the amendment. He urged that while the American is as patriotic as ever, the trained soldier is necessary in the nation's defense.

Senator Cone vigorously assailed the amendment, and stated that he considered the State encampment an absolute crap-shooting farce.

Senator Massey and Senator Hudson each spoke in behalf of an amendment.

Senator Flournoy offered an amendment to the amendment, making the appropriation $15,000, instead of $10,000.

Senator Flournoy delivered a masterly speech in behalf of the State troops.

The Senate adopted the Buckman amendment for an appropriation of $10,000 for the State rifle range at Black Point.

The Flournoy amendment making the amount $15,000 was lost.

The Assistant State Auditor was allowed $50 for postage and stationery.

The Senate then passed over informally further consideration of the bill, and took up bills on third reading.

House Bill No. 682, by Stokes of Escambia—Appropriation to meet deficiency in salary and expenses of the Railroad Commissioners; passed.

Senate Bill No. 509, by West—Appropriating $15,000 for benefit and maintenance of Florida State Reform School. Passed.

The pension bill was then taken up and passed, 16 to 15, the vote being as follows:

Ayes—Mr. President, Baker of the Twentieth, Buckman, Cook, Dayton, Harris, Henderson, Hosford, Humphries, Johnson, Massey, McCreary, McLeod, McMullen, Miller, Withers—16.

Nays—Adkins, Beard, Broome, Crill, Cone, Cottrell, Davis, Flournoy, Girardeau, Leggett, Sams, Sloan, West, Williams and Zim—15.

The Senate then returned to the consideration of the appropriation bill.

The assistant bookkeeper in the Treasurer's office was reduced in salary from $1,500 to $1,200.

The bill was then passed to third reading as amended.

The Senate then reverted to House messages at the request of Chairman Leggett of the enrolling committee.

Senator Flournoy was appointed on the joint committee to confer with the Secretary of State relative to capital improvements.

Consideration of the Governor's veto of the Leggett school bill was then taken up.

Adjournment was taken during the discussion.

Night Session.

Consideration of the Governor's veto message was resumed.

Senator Buckman attacked the constitutionality of the measure, and supported the veto.

Senator Beard said there was no constitutional light thrown upon the measure by the Governor's message.

Consideration of the measure was finally laid over.

The House bill making appropriations for State educational institutions was taken up.

Senator Cone offered an amendment reducing the appropriation for the negro school from $25,000 to $15,000, and spoke strongly for the amendment.

Senator Buckman pointed out that outside of sentiment the State received Federal funds for the school, under a contract which requires that the State keep up its appropriation.

Senator Crill of the special committee spoke against the amendment and described the usual work being done at the institution.

The amendment was adopted, 14 to 12.

A communication was received from the House asking that the Senate take up the Cash primary bill.

The bill was passed, 20 to 8.

At 2 a. m. the Senate passed the South Jacksonville charter amendments.

The Legislature will adjourn at 12 o'clock tonight.

ORDERED TO APPEAR BEFORE U. S. COURT

YARD MASTER A. C. L. TO FURNISH RECORDS OF YARDS.

Was Summoned to Appear at Once in Jacksonville With Records of Cars Handled in 1896.

G. N. Browne, yardmaster for the A. C. L. railway at High Springs, has been summoned to appear at once before the U. S. Court in Jacksonville in reference to cars handled there during 1896.

Just what the action is taken for could not be definitely ascertained, even the railway officials here knowing nothing whatever about the matter further than the fact that the yardmaster must produce the records of certain cars handled during the year 1896.

It is their opinion, however, that the case is the outcome of so many cars having been opened there about that time and it relates to certain shipments for which claims are now being called for through that tribunal.

TO PERPETUATE MEMORY OF JEFFERSON DAVIS

His Birthplace at Fairview, Ky., Dedicated as Memorial Park With Appropriate Ceremonies.

FAIRVIEW, Ky., June 4.—Among the trees which have grown up above the birthplace of Jefferson Davis since the year, early in the nineteenth century, when the Davis family removed to Mississippi, the Jefferson Davis Memorial Park was simply dedicated yesterday. Northeast across the State is Hodgenville, near which Abraham Lincoln was born eight months after his great opponent. Fairview is still a tiny town rimmed with forests and sloping gently toward the grass-grown battlefields of Tennessee.

In September, 1907, when the gray grown and enfiladed ranks of Kentucky's famous "Orphan Brigade" met in Glasgow, Ky., at the grave of Gen. Joseph H. Lewis, their commander, former Governor Bolivar Buckner of Kentucky broached the plan of the Jefferson Davis Memorial Association, subscriptions were started, the women of the South aiding nobly, and when all but $4,000 had been raised to purchase seventeen acres at Fairview, Gen. Bennett H. Young, commanding the Kentucky division, United Confederate Veterans, advanced that sum and made the memorial possible.

Gen. Young's Address.

Oratory, music and flowers made yesterday notable. A basket dinner and a barbecue were provided by the people of Todd and Christian counties, which share equally the town of Fairview, and when Col. W. A. Milton of Louisville, as chairman in the absence of Gen. Young, who was detained in Chicago, opened the meeting the homestead of the Davises was crowded.

Gen. Young, a prominent Louisville lawyer, wrote the chief address of the day and it was read by Col. Milton. He asserted that every Southern State should rear a shaft to Jefferson Davis, whose character and sufferings he dwelt upon sympathetically. He paid high tribute to Lincoln, saying that the time had come when men might speak kindly and truly of the past. He said the message which the United South gave to the world now was one of everlasting peace.

The plan is to raise $30,000 more with which to build a memorial temple to contain all the records of the Confederacy, and to remodel a two-story residence upon the Davis farm to house the widows of Confederate soldiers.

If its worth more to someone else than to you—no matter what it is—a want ad. will be a good investment.

Houses Wrecked by the Force of Twisting Storm

SYLVANIA, Ga., June 4.—A half dozen persons, probably more, were injured in a terrific cyclone that passed over the lower part of Screven county at 4 o'clock yesterday afternoon, and while no life has yet been lost because of its passage, many persons escaped by seeming miracles, houses falling about and upon them without inflicting fatal injuries.

It completely wrecked the home of Stephen Thomson, a white farmer, and, buried under its ruins the farmer, his wife and children. An act of heroism followed when the older of their sons after working valiantly despite his injuries, managed to extricate himself from the fallen timbers and debris of the house and then rescued the other members of the family in turn. Mrs. Thomson was very seriously hurt, but the others of the family sustained injuries less grave, though very painful.

Many of those who were caught by the cyclone saw it approaching, but owing to its velocity were unable to find places of safety before it struck. It is stated that the storm's appearance was that of an ordinary whirlwind, such as are frequently seen in summer, though it was very much larger and moved with much greater rapidity.

House Votes to Repay Special Drainage Tax

TALLAHASSEE, June 4.—One of the most important actions taken by the House of Representatives yesterday was the passage of a bill authorizing the State Comptroller to repay to the counties of Dade, St. Lucie, Lee, DeSoto and others moneys collected by a special drainage tax through an act of the Legislature of 1905.

The bill authorizing the imposition of a general drainage tax was passed in 1905. Each acre was assessed five cents and nearly $5,000 collected.

In 1907, the Legislature passed a bill authorizing the refunding to the tax collectors of the counties wherein the land was assessed of the moneys collected. This bill was vetoed by Governor Broward.

The money has remained in the custody of the Comptroller the past several years, and by the bill passed yesterday the Comptroller will return to the tax collectors of each of the counties interested the amounts collected. The money will then be refunded to the individual tax payers.

With the disposition of this important matter, and the passage of the bill appropriating $228,900 for State educational institutions, the House settled down to the finishing work of the session.

Negro Is Lynched for Shooting Circus Man

FRANKFORT, Ky., June 4.—John Maxey, a negro, Wednesday night shot B. C. Bowers, a circus man. He was taken from jail here early yesterday and lynched. The jailor showed resistance to the mob, but with little effect. The door was broken down and the negro taken out and hanged to the St. Clair street bridge.

The action of the mob created intense excitement among the law-abiding citizens of the capital city, when they were apprised of the hanging.

Bowers is in a critical condition.

Bowers Was a Valdostan.

VALDOSTA, Ga., June 4.—Bert C. Bowers, who was shot at Frankfort, Ky., Wednesday night, was one of the owners of the Van Amberg Circus, which spent winter before last in this city. He is a member of the Elks Lodge of Valdosta and called this city his home, though his residence here was only temporary. He was the purchasing agent of the circus and made many friends among the business people. His partner in the show business was Jerry Mugivan.

Being Repainted and Improved.

The corner drug store of J. W. McCollum & Co. is being repainted, repapered and otherwise improved to keep up with the advancement of the other neat places of the city. It gives it the appearance of a brand new shop and proves rather pleasing to the large number of customers.

OWENS TO DIE ON SCAFFOLD JULY 9th

GOVERNOR GILCHRIST SENDS THE DEATH WARRANT.

Petition is Being Circulated Asking That Sentence Be Commuted to Life Imprisonment.

Governor Gilchrist has issued the death warrant, naming Friday, July 9th, as the day of execution for R. H. Owens, the white man now confined in the county jail for the murder of R. L. Smith at Jonesville last January.

A Sun reporter was present Friday at noon when Sheriff Ramsey read the warrant to the doomed man, who showed no signs of emotion or appeared in the least concerned regarding his fate.

When asked if he would like to say anything, to the public through The Sun, Owens replied, "I will fix up something for publication at a later time, but I want the people to know that I have not had a fair trial, and I feel that my life is being taken from me just as if I was a common dog.

"Notwithstanding my repeated entreaties for help and assistance from the law, and as a last resort applying to Judge Wills, I must say that I feel rather bad over the way my case has been managed."

"How do you feel toward dying at this time and do you think you are prepared for the journey you are to take?" was a question propounded by the reporter.

The doomed one replied: "I'm not afraid to die, but I will call on some of the ministers at a later time, for I feel as if there was plenty of time in which to look after that. I have asked Sheriff Ramsey to send Rev. Rogers here, but the gentleman has not come to see me, but I will send for Rev. Hay, who has twice visited me, and knows better of my needs."

The reporter noticed a small Bible which the prisoner had evidently been reading, also a pair of glasses close by, and while the man does not comprehend his predicament, he has changed wonderfully during the past few weeks.

During the reading of the warrant Owens wore a smile and seemed perfectly contented. He does not give the matter the serious consideration that he should, which shows that he is wholly incapable of understanding and appears more as a little child than a man.

Owens' wife is now working hard to get his sentence commuted to life imprisonment and has been all over the western part of the county getting signatures to the document, but having very limited means she has not made the progress that she could have made with the necessary financial assistance.

Before the reporter's departure Owens stated that he would have something of interest to the people prepared for publication and asked that he be allowed space to tell all of the occurrence through The Sun, for he felt that they would then better realize his position. He is a poor man, without a dollar in the world, and felt that he was compelled to kill the men to protect the life of his wife, child and himself.

NOTES FROM BELL.

BELL, June 4.—A terrific southeast storm swept through this vicinity Wednesday evening, doing considerable damage to crops, orchards, fence and timber, wrecking some buildings, among them the two-story building, Masonic Lodge, above the colored church, off the blocks.

S. O. Barron and F. J. Jones are shipping cantaloupes and returns are satisfactory.

F. J. Hodder split his ankle very badly with an ax and is suffering much pain.

YOUNG EVINSTON MAN ATTEMPTS SUICIDE

SHOT HIMSELF WITH REVOLVER ON THURSDAY AFTERNOON.

Was Successful at Farming and No Cause Has Been Attributed for His Rash Act.

The Ocala Banner of Friday has the following account of an attempt at suicide by a young man who has been making his home at Evinston and McIntosh:

"A report reached Ocala yesterday afternoon that Melton Yates, a young man who has been living at Evinston and McIntosh for the past three years, attempted to commit suicide by shooting himself with a revolver.

"He pointed the weapon upward under his chin, and the ball is thought to have lodged in his brain.

"At last accounts the young man was under the care of Doctors Burgin and Price, but was still alive, though his wound is said to be such a bad one that it is almost bound to result fatally.

"Young Yates is reported to have told a friend several days ago that he meant to take his life, as he was tired of living.

"The unfortunate young man is said to have been very successful in his farming operations for the past few years, and especially so this season, and no cause can be assigned for his attempt upon his life yesterday.

"We tried last night to get additional and more definite information about the affair, but the telephone booth at McIntosh had evidently been closed, as no response could be gotten from several efforts of 'central' here."

WALTER LEDBETTER PAYS DEATH PENALTY

NEGRO MURDERER HANGED IN DUVAL COUNTY JAIL.

Made No Statement, But Walked Firmly to the Scaffold and Died Game—The Crime.

JACKSONVILLE, Fla., June 4.—Game to the very last and without making any statement as to his guilt or innocence, Walter Ledbetter, a burly negro, paid the penalty of the double murder of two aged white women, on the gallows in the Duval county jail this morning.

Ledbetter went to his death without even a quiver, and not a single sign of nervousness was shown in his movements during the preparations for the springing of the trap. Sheriff Bowden threw the lever at 10:27 o'clock, and Ledbetter was pronounced dead by Drs. Perry, May and Jennings at 10:40 o'clock. At 10:41 o'clock the body was cut down and removed from the jail by Leonard L. Pratt, the colored undertaker.

Makes No Statement.

Sheriff Bowden asked Ledbetter if he had a statement to make, and his reply was:

"I have nothing to say. I have made my peace with God and my statement to Jesus Christ."

The cap was adjusted at 10:26 as the colored quartet sang "Lord, I'm Coming Home." At 10:27 the trap was sprung after Sheriff Bowden had asked: "Walter, are you ready?"

First Confessed.

Ledbetter when first arrested confessed his guilt to the county officials, but since that time made no statement to anyone, although he would not deny his crime. Even his spiritual adviser was practically convinced of his guilt, although nothing had been told to him by the negro, who would only say that he had made his peace with God.

The crime for which Ledbetter today paid the penalty was the murder of Mrs. Elina Norman, 89 years old, and her daughter, Emily Norman, 68 years old, who were found dead, with the backs of their heads crushed by blows from an ax. The murder occurred in their humble little home at Marietta, eight miles west of Jacksonville, on the morning of September 13th last, and the bodies were found on the same afternoon by Elizabeth Norman, another daughter, who had been absent from home during the morning.

Elizabeth Norman, who found the dead bodies of her mother and sister was at the county jail and wished to see the negro hanged, but Sheriff Bowden, fearing a scene, refused her admittance to the jail. She remained outside until word was passed that Ledbetter was dead.

Ledbetter's motive in killing the two aged women was robbery, and he secured by the crime for which he paid the death penalty today just $4.15.

WHITE PRISONERS ATTEMPT TO ESCAPE

JAILOR TORLAY KNEW OF PLANS AND KEPT CLOSE WATCH.

Had Partially Sawed Their Way Through When Jailor Appeared on the Scene.

Jailor Torlay surprised a number of the white prisoners at the county jail on Thursday night by appearing on the scene just as they thought they had about gained their liberty.

The men connected with the attempted delivery were Joe Hodge, Simeon Knighten and R. H. Owens, the latter the man condemned to hang, the other two prisoners being held for the U. S. Court.

They secured an entrance to the corridor by taking a small piece of hoe neck and breaking the lock which fastens the slide used for the purpose of passing in their meals to them. After this, it was easy sailing for them to crawl through the opening to the corridor, but impossible for them to get on the outside unless they had good tools to work with, and even then it would have been a very difficult task.

When Jailor Torlay appeared they had succeeded in prying off three of the boards and were "pecking" a hole in the brick, but at best it would have required several hours to perform this job.

Only one of the men had gained entrance to the corridor, but the second had stripped off all of his clothing and passed it through and was trying to get through himself when the jailor walked up the stairs.

Had Made Rope.

So certain were they of making their escape they had made a rope of the blankets, and had packed all of their little belongings and passed them out into the corridor ready for the exit as soon as they could make it through the sixteen-inch brick wall.

Jailor Torlay had learned of their plans on Wednesday night, and was laying in wait for them at 1:30 Friday morning when they again began their work, and after he was certain that all of them were out, he walked up the stairs and found them as above stated.

The tools used was a saw made by someone in the jail, and which they claimed to have found, and the piece of hoe neck which was left there by the Mott boy, it being one of his "hobbies" and what he used to amuse himself with. In order to get hold of all the tools they had, the jailor thought it best to wait until they were out in the corridor.

EFFECT OF PRESERVATIVES.

Insects play a most important part in timber destruction. The injury done is generally underestimated as their depredations go on gradually, but forcibly, attracting little observation. When they bore into the timber they open up air chambers and channels which make it easy for rainwater to seep in, and thus keep the wood in a moist condition. Fungus spores floating through the air are enabled to germinate with greater rapidity and with increased effectiveness and the decomposition of the pole consequently is materially hastened.

Several years ago the Forest Service co-operated with one of the large telephone companies in Georgia and Florida to experiment with various preservatives in protecting the butts of telephone poles from decay. These preservatives were simply painted upon the wood, and of course did not sink in to any great depth. A recent examination made of this pole line showed that wherever the preservative had entered the wood no destruction due to insect attack had taken place, but where the wood was unprotected, such injury was frequently serious. Poles in which the preservatives had seeped through a crack were often more or less fluted on the surface, that is, the oil saturating the wood in the immediate vicinity of the crack protected it from the attacks of the insects. It is essential, therefore, particularly in the warmer portions of the United States to protect timber from the attacks of insects as well as of fungi, if the longest life is to be secured.

WHAT PUBLIC SCHOOLS MEAN.

In a recent expression of his views of democracy and education, Dr. Martin G. Brumbaugh, superintendent of schools, Philadelphia, said:

"If our democracy is to be essentially and really the pride and glory of men it must rest upon some more fundamental and vital institution whose function it is to train individuals for participation in the form of government we avow. This prop beneath the republic, this universal factory whose output is to make and advance democracy, is for obvious reasons the free public school.

"Two individuals can participate in a common cause only to the extent that they possess common sentiment and common knowledge. To make participation impossible requires only the absence of common knowledge. This holds true throughout. Hence our democracy depends upon the possession by all its individual participants of a fund of common knowledge, which fund is the currency of democracy; and the function of the public school is to impart such a fund of common knowledge to all that participate in our democracy so as to make facile the interchange of ideas and the reciprocal regard of each for the other.

"Moreover, the growth of democracy, as well as its security, depends upon the widening of this fund of common knowledge. Hence the specific means of promoting the best tradition in our national life will be found to lie in the increased efficiency of the schools. What the school is as the creator of common thought and common sentiment determines what our democracy is."

TRAIN THAT BOY.

Give your boy some sort of training.

Just what you train him in does not matter so much as that he receives training, that he shall early learn to become amenable to discipline.

Put him in a militia company where he will learn prompt obedience; where he will learn that practice will make him have better control over his own muscles, where he will learn the value of team work with his fellow man.

Or see that he belongs to a good baseball team, where he will soon learn that discipline of mind and body, of temper and spirit are necessary for the success of his side.

Train him to use his eyes, his hearing, his muscles. Train him to think, then train him to act.

One of the great values of the popular secret societies is that when they take in a young man he is at once bound by certain rules, which he must obey. He is taught to go through certain movements, to recite certain things and to act in concert with others for the advancement of the particular society with which he is affiliated.

Train your boy in habits of industry, of promptness and of honesty.

Habit, when once formed, is a great conservator. We hate to change our habits, and a good habit, once acquired, is almost as hard to break as is a bad habit.

Have the boy get the habit, get a good one, and he will most likely keep it all the days of his life.

It is easy to pick out the boy who has been permitted to come into early manhood without training.

He is the boy who loafs on the street corners and who has an aversion to work.

He is the boy who develops into the furtive-eyed, shifty young man without a definite aim in life.

There are too many of that kind of boys who are growing up failures, because they were not properly trained in self-restraint, industry, truthfulness and sobriety.

Train that boy of yours.—Miami News-Record.

Editor Howard in his Orlando Reporter-Star says: "The Sanford Herald rises up to say that when the State Legislature adjourns some papers in the State will have to depend for sensational news upon the piano contest. That doesn't fit us, because our piano contest will adjourn about the same time as the Legislature. We opine that our piano contest has been of greater profit to us, however, than the State Legislature has been to some folks. Still, we shall be heartily glad over the adjournment of both; though it may trouble us somewhat to fill in the spaces, since the celery season is over and its too hot to grow turnips."

The Pensacola Journal says: "So the schools can get no state money until that rank old instrument, the constitution, shall have been amended. And it may be there are still remaining certain patriots who will stand out against the calling of a constitutional convention, but it is hard to believe."

The best evidence that the building of hard roads in Alachua county is attracting attention is the visit recently of several delegations from other sections of the State to inspect the material being used here.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. CURRENT COMMENT.

The Marietta (Ga.) Journal says: "The Liberal party, J. Sidney Tapp, of Atlanta, promoter, have met, about a dozen strong, in Atlanta, and selected Charles J. Moore, of that city, as a candidate for Governor. Life is awful short to waste it that way."

The Chattanooga Times says: "President Taft, sending estimates back to the department with instructions to cut them from twenty to thirty millions, is a much more eloquent appeal for popular approval than wordy messages on 'divorce, race suicide,' etc."

The Hartford (Conn.) Globe says: "Thus we have America, the so called cradle of democracy and equality, standing before the world fighting to give unto him that has even more while we take from him who has not. In England, the country we have been fond of scorning as the home of class, is offered an example of legislating for the poor man at the expense of the rich. Truly it is to laugh."

The Columbia (S. C.) Record (Dem.) says: "The manufacturers of steel and iron—of whom Mr. Carnegie himself used to be one—have had more than justice. They are not afraid of injustice being done them now; they are only fearing that their favors may be taken away, that they may be deprived of their bounties through which the greatest monopoly of the world, with one striking exception, has been built up."

The Louisville Courier-Journal (Dem.) says: "Senator Burton of Ohio voted for free lumber, and Senator Dick, his colleague (both Republicans), voted against it. Senator Cummins of Iowa voted for free lumber, and Senator Dolliver against it. Senator Rayner of Maryland voted for free lumber, and his Democratic colleague against it. Senator Culberson and Senator Bailey of Texas, and Senator Clay and Senator Bacon of Georgia, separated in the same way. Those given to looking for the nigger in the woodpile will have no difficulty in finding plenty of woodpiles just now."

Vagaries of a Cold.

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put up in a large 35c size as well as the regular 50c size.

NEGRO FLAGMAN WAS KILLED ON THURSDAY

SENT OUT TO FLAG TRAIN AND FELL ASLEEP ON TRACK.

Train in Charge of Conductor Miller and Engineer Hunt at Time of Accident.

John Ashley, a negro flagman on extra freight train No. 212, which picks up vegetables between Ocala and this city, was killed Thursday night this side of Lowell by being knocked from the track.

Ashley had been sent out by the conductor on the freight to flag No. 9, the regular passenger train which passes here at 7:35 and which was in charge of Conductor Miller and Engineer Hunt, and in place of the negro attending to his duties he is supposed to have dropped off to sleep while waiting for the train to put in its appearance.

The first that Engineer Hunt knew, he was up to the negro, whom he judged to be someone walking along the track with a lantern. The air-brakes were applied but they did not have the effect of stopping the train until after it had struck the man who was sitting on the side of the track.

The negro was picked up and carried to the hospital in Ocala, but died a few hours afterward. His remains will be sent to his relatives at Baker's Mill.

No blame can be attached to the train crew of No. 9, as the darkey had gone out to flag the train that caused his death.

DREADFUL DISEASE IS CURED BY CUTICURA

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it, although we did not know it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. I recommend the Cuticura Remedies for all skin diseases and give them my greatest praise. Mrs. Geo. L. Fridhoff, R. F. D. 1, Warren, Mich., June 30 and July 13, 1908."

I used different kinds of things but each kind made it worse until I read of the Cuticura Remedies, and one cake of Cuticura Soap and one box of Cuticura Ointment cured him like magic. I would not be without it in the house and I have recommended it to all my friends. Mrs. J. D. Maxwell, 6th St., Woodside, Long Island, N. Y., May 21, 1908."

THE ACCIDENT AT RALEIGH.

Further Details Concerning Accidental Death of Columbus Philips.

RALEIGH, June 4.—For the past three weeks Cone's mill has been shut down adjusting some new machinery, and on the evening of June 1st, at 3 o'clock, Engineer Will E. Sapp, who superintended the work, signalled everything in readiness to start the two engines to test his work, and turning on the steam, the connecting steam pipe between boilers and engine broke, knocking him down and filling the engine room with steam, though he escaped with only slight bruises.

Little Columbus Philips, thirteen years of age, son of Mr. and Mrs. A. B. Philips, who was standing near Mr. Sapp, was struck on the head by a large falling pipe and his skull broken. He lay unconscious, concealed by the dense escaping steam, until the faint outlines of a body were seen by the proprietor, T. J. Cone, who rushed into the room at great personal risk and rescued the body, which was frightfully scalded by the hot steam; also his left arm was broken.

Tenderly he was borne to his home and medical aid summoned, who did all that skill could accomplish, but to no purpose, and after fifteen hours of intense agony, death intervened.

The parents and brothers and sisters of little Columbus have the deepest sympathy of all, and this is the only solace we can give.

Spanish Railroad Trains.

The Spanish train averages possibly twenty miles an hour—to allow one to make time exposures of the scenery perhaps. It makes frequent and long waits. At every station the guards run up and down, shouting the name of the town and the number of minutes for each stop. At every station also the two military guards who accompany each train descend and walk around the cars, looking to see that no robbers are concealed. As there is at least one stop an hour these guards get some exercise before the day is over. They say this custom was adopted to drive away any brigands who might be concealed in or under the train and that it has been successful. These military guards are very fine looking men and wear an impressive uniform. We saw more than one black eyed senorita look approvingly after them as they passed by.—Outing Magazine.

JOHN BROWN'S CAPTOR DEAD.

Maj. Israel C. Green, Who Made Dash Into Famous Engine House.

Major Israel C. Green, aged 85 years, who captured John Brown, of Osawatomie, Kansas, at Harper's Ferry, Va., died near Mitchell, S. D., on a farm where he had lived thirty-six years, Friday last.

A spectator's vivid story of capture of John Brown by Lieutenant Green:

The United States Government's arsenal at Harper's Ferry was seized October 17, 1859, and held for fifty-eight hours by John Brown and sixteen men. During the lapse of that time more than nine hundred armed and frenzied Virginians and Marylanders had fairly riddled with shot the engine house in which the little band of enthusiastic anti-slavery men had entrenched themselves. Eighty United States marines commanded by Major Russell and Lieutenant Green won the honors of the day. The force was directed by Col. Robert E. Lee, chief of staff of Lieutenant-General Winfield Scott. Col. Lee was accompanied by Lieutenant J. E. B. Stuart, a dragoon officer. Of the seventeen men in the engine house, eleven were killed before Green and his comrades emerged with the aged Brown, his dying son and four boys, one of whom was wounded.

John E. R. Dangerfield, an acting United States paymaster, who was one of the eight hostages held in the engine house, wrote this description of the capture of Brown:

"I had assisted in the barricading—fixing the fastenings so that I could remove them upon the first effort of the marines to get in. But I was not at the door when the battering began, and could not get to the fastenings until the ladder was used. I then quickly removed the fastenings and after two or three strokes of the ladder the engine rolled partially back, making a small aperture, through which Lieutenant Green, of the marines, forced himself, jumped on top of the engine, and stood a second in the midst of a shower of balls, looking for John Brown. When he saw Brown he sprang about twelve feet at him, and gave an underthrust of his sword, striking him about midway the body and raising him completely from the ground. Brown fell forward with his head between his knees, and Green struck him several times over the head, and, as I then supposed, split his skull at every stroke. I got out of the building as soon as possible and did not know until some time later that Brown was not killed. It seems that in making the thrust Green's sword struck Brown's belt and did not penetrate the body. The sword was bent double."

The editor of The Morning News remembers the threatened "uprising" of the negroes, as the result of the John Brown insurrection in Virginia. The women and children were especially guarded, and every precaution taken to prevent trouble; but the very old family negroes were entrusted with the care of them.—Tallahassee Morning News, 1st.

Meeting of Colored People.

Editor Sun: Please allow me space to state a few things concerning the doings of the colored people at Traxler.

The ministers of the Primitive Orthodox Baptist Central Association met in a union meeting at New Damascus Primitive church last week, this union meeting auxiliary to the Central Florida Association. The new church in which this union meeting was held is very near completed.

This is the first primitive union ever held in this part of the State.

A few words of welcome were addressed by Prof. S. H. Henley on Saturday concerning Christianity, and Sunday concerning Sabbath school. His words were words of welcome and highly appreciated. We were glad to have him speak upon this occasion.

The following officers were elected: Rev. M. E. Edward, chairman, Gainesville, Fla.; Jas. A. Taylor, secretary, Alachua, Fla.; Rev. I. B. Taylor, treasurer, Alachua, Fla.

The true gospel was preached in this union, and it gave great joy to the hearts of many.

Rev. M. Carter of Gainesville preached the introductory sermon.

The next session will be held at Wannee, Fla. JAS. A. TAYLOR.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

FORESTER ASKS RAILROADS TO CO-OPERATE

REPORT OF NATIONAL CONSERVATION COMMISSION.

Shows That We Are Cutting Our Forest Three Times Faster Than They Are Growing.

WASHINGTON, June 6.—The presidents of the leading railroads of the country have just received a letter from Gifford Pinchot, United States Forester, calling upon them to practice forest conservation and better timber utilization. In this letter the Forester says:

"I am writing to call your attention again to some phases of a subject to which I know you must already have given much thought—the conservation of our forests. The report of the National Conservation Commission shows that we are cutting our forests three times faster than they are growing; that much large timber and young growth are destroyed yearly by fire; that as a nation we have used wood wastefully and extravagantly; that the only way we can get the timber we shall need in the future is to keep all our forest land constantly growing trees, and that the longer we delay action the greater will be the pinch of a timber shortage later on.

"One-fifth of our remaining timber is in public forests, and on these forests the nation and the States are practicing forestry. Four-fifths of our timber is privately owned, and it is being cut almost exclusively for present profit without regard to the future. The problem of providing a timber supply can not be solved by the National Government alone, by the States alone, nor by individuals alone; all must work together.

"Since the railroads are among the largest consumers of wood, they will suffer heavily from the much higher prices and the actual scarcity of timber which will occur if our forests are not conserved. Railroad companies can most advantageously undertake both the growing of timber and the economical utilization of the product. They have a steady demand for timber, the extent of which can be largely anticipated, and they need much timber of kinds which can be grown in a relatively short time.

"Each railroad has its own especial timber problems which must be worked out to meet the given conditions. At the same time there are certain lines of general policy which can be profitably adopted by many roads. They are:

"1. The use of chemically treated ties wherever possible.

"2. The use of so-called inferior woods, as, for example, black gum and loblolly pine, for ties, which will reduce the drain on white oak, and which is entirely practicable if the ties are treated.

"3. The purchase and management of land bearing mature timber which can be used immediately, and of second-growth timber which will meet the needs of the future. Such lands if properly managed will insure a perpetual supply of ties and lumber at the cost of production.

"4. The planting of trees upon nonagricultural land owned by the company, which does not now contain sufficient young growth to produce a timber crop.

"5. Co-operation with other roads in the adoption of standard specifications for ties and timber and for the treatment of them. Co-operate with timber land owners and the States in fire prevention, and in bringing about conditions which will make the practice of forestry profitable.

"These are in substance the recommendations of the subcommittee on Forest Supplies of the American Railway Engineering and Maintenance of Way Association. The adoption of these recommendations and the appointment of technical men to carry them out will, it seems to me, be wise action for any railroad. The influence of their general adoption would be far reaching and most beneficial.

"I should be very glad to discuss the matter more in detail with you at your convenience, or to be of use in any other way."

Responses which show much interest are being received, and it is presumed that definite action along the lines mentioned will result.

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable.

Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver, or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N.Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N.Y., on every bottle.

Off Wheel of Fortune.

In the village church of Comfort, near Pont-Croix, in western Brittany, is a very good specimen of the now rare "wheel of fortune." It is made of wood, with a row of bells on its outer rim and pivoted between a couple of rough beams, altogether very primitive workmanship. By means of a cord attached to a crank the wheels can be made to revolve and set all the bells a-jingling. I have also heard that the peasants believe that it has miraculous power of healing when rung over the head of a sufferer who has placed a sou in the box [illegible] the rope is pulled. I received remarkable confirmation of this belief, for while making a photograph a well to do sailor's wife and her husband came into the church and looked round. The woman asked me if I thought there could be any truth in this belief, as her child was very backward in learning to talk. Her nurse, who came from those parts, had advised her to bring the baby and ring the bells of Comfort over his head, when he would be sure to talk. As she was passing she had looked in to see if it was worth trying!—London Chronicle.

The Smooth Way.

In the last generation Tyler Cobb, Esq., was a well known citizen of North Bridgewater, now Brockton Mass. He was famous throughout Plymouth county for his witty retorts and dry humor.

Never having taken a sea trip, Mr. Cobb one day conceived the idea of making a voyage to New York. Accordingly he sailed from Boston in a small schooner. The first day out a storm was encountered and Mr. Cobb became violently sick, but after several hours he mustered up courage and strength to look out upon the troubled waters.

As he looked from the side of the little ship up the trough of the sea it seemed very smooth to him. The captain's cutting of the waves was senseless, he told himself. But as this mad steering continued the unhappy passenger finally crawled out on hands and knees to where the captain stood at the wheel and, raising his voice above the din of waves and wind, shouted:

"Man, man, keep in the ruts, keep in the ruts!"

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT.

Notice is hereby given that the undersigned intend to apply to His Honor, J. T. Wills, Judge of the Eighth Judicial Circuit of the State of Florida, at Starke, Florida, on the 25th day of June, 1909, or as soon thereafter as we can be heard, for Letters Patent to be issued to Gainesville Board of Trade, a corporation to be organized not for profit, of which corporation the following shall be the Articles of Incorporation:

Article 1—Name—The name of this corporation shall be "GAINESVILLE BOARD OF TRADE."

Article 2—Nature of Business—The objects of this Board of Trade shall be to foster, encourage and develop the mercantile and manufacturing interests of Gainesville and Alachua county; to collect, preserve and circulate useful information concerning the city, its trade industries and advantages; to study the workings of the great systems of transportation upon which our commercial and industrial prosperity so much depends, and endeavor to remedy, by all proper means, the defects and abuses therein so far as they injuriously affect our interests; to obtain fair and equitable rates of freight to and from Gainesville and other important points in the county, for vegetables and fruit as well as merchandise, and to prevent, if possible, discrimination in favor of other cities; to secure the abatement of vexatious and unjust overcharges, and insure prompt settlements of damages on goods shipped. To encourage wise, needful legislation, and oppose the enactment of laws which might injuriously affect our manufacturing and commercial interests; to agree upon commercial forms and regulations; to promote integrity, fair dealings and good faith among, and adjust and determine disputes and differences between, business men; to inculcate the highest principles of honor, equity and business morality in the community; the erection of needful public buildings; and the swift transportation and speedy and accurate delivery of the mails, by using our utmost influence to secure from the general government that share of the natural appropriations to which we are justly entitled; and, generally, to strive with united effort to increase the wealth, industries, influence, trade and population of Gainesville and Alachua county.

Article 3—Capital Stock—The amount of the capital stock of this corporation shall be Four Thousand Dollars, which shall be divided into Four Hundred shares, of a par value of Ten Dollars per share. The capital stock shall be paid for in cash.

Article 4—Term—The term for which this corporation is to exist is ninety-nine years. The business of this corporation shall be conducted by the following officers, viz: a President, Vice-President, a Secretary and Treasurer, and a Board of Governors consisting of seven persons, exclusive of the President and Secretary-Treasurer, who shall be ex officio members of the Board of Governors.

Article 5—Officers—The officers of this corporation shall hold office for the period of one year from the date of their election, and shall be elected at an election to be held upon the first Monday in November, A. D. 1909, and upon the first Monday in November of each and every year thereafter. The persons who are to conduct the business of this corporation as its temporary officers, until the officers are elected at the first regular election and qualified, are:

W. R. Thomas, President; T. W. Shands, Vice-President; B. F. Hampton, Secretary-Treasurer; Board of Governors: E. E. Cannon, T. W. Shands, H. O. McArthur, B. F. Williamson, H. H. McCreary, Lee Graham, W. R. Taylor.

Article 6—Liability—The highest amount of indebtedness or liability to which this corporation can at any time subject itself is Twenty-five Thousand Dollars.

Article 7—Membership—Any citizen of the State of Florida, in good standing, may become a member of this organization, by a three-fourths vote of the members present and voting.

Article 8—Constitution and By-Laws—A constitution and by-laws shall be adopted at the first meeting after the issuance of charter, and either may be amended at any regular meeting, by vote of two-thirds of the members present, after due notice in writing, at the previous meeting, which notice shall be read to the meeting by the Secretary.

Article 9—Real Estate—The amount of real estate which the corporation may hold may be $25,000.00.

Article 10—Names, residences and subscription of incorporators:

W. R. Thomas, Gainesville, Fla., 10 shares.

B. F. Hampton, Gainesville, Fla., 10 shares.

T. W. Shands, Gainesville, Fla., 10 shares.

E. E. Cannon, Gainesville, Fla., 10 shares.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

AUTO CAUSES RUNAWAY.

Little Miss Louise Hannan Injured by Jumping From Vehicle.

Little Miss Louise Hannan, in company with John Hannan and her sister, Miss Bessie, were out driving Friday afternoon when, on West Liberty street, the horse became frightened at a passing automobile and made a dash to run away.

In trying to run it nearly overturned the buggy, with the result that the two children, to save themselves from being thrown out, jumped to the pavement.

The first named was picked up and carried into the home of T. B. Ellis, where everything possible was done to relieve her until the arrival of a physician, who discovered she had a very badly sprained ankle and one that will require several days to be able to use again.

There is a very strict law in regard to automobiles and the drivers of all machines are supposed to stop and shut down their engines when they see that a horse is in any way frightened.

The Loyal Temperance Legion will meet this afternoon at 3:30 o'clock at the reading rooms and a full attendance is desired.

Accidents will happen, but the best-regulated families keep Dr. Thomas Electric Oil for such emergencies. It subdues the pain and heals the hurts.

Remember we have all vegetables in season, besides we handle a full and complete stock of fresh groceries, therefore we can supply your eating wants at all times. J. G. Harrold.

We do not know of any other pill that is as good as DeWitt's Little Early Risers, the famous little liver pills—small, gentle, pleasant and sure pills with a reputation. Sold by all druggists.

Miss Carrie Williams of Alachua, accompanied by her friend, Miss Julia Rogers of Jacksonville, arrived in the city yesterday and will spend the next several days here as guests of Mrs. J. B. Dell, Sr.

Capt. B. W. Fontane, one of the substantial citizens of Micanopy, was among the visitors to the county capital yesterday. He planted a very large acreage of vegetables during the past season and the returns were highly satisfactory.

There are many imitations of DeWitt's Carbolized Witch Hazel Salve—DeWitt's is the original. Be sure you get DeWitt's Carbolized Witch Hazel Salve when you ask for it. It is good for cuts, burns and bruises, and is especially good for piles. Sold by all druggists.

Think it over. What's the difference? You'd be asked to subscribe for the benefit of the baseball team anyway, and you know you always do it gladly. Why not increase your subscription and get tickets to the Baird in exchange, then enjoy the performance yourself or make someone else happy with a subscription seat?

Colds that hang on weaken the constitution and develop into consumption. Foley's Honey and Tar cures persistent coughs that refuse to yield to other treatment. Do not experiment with untried remedies as delay may result in your cold settling on your lungs. J. W. McCollum & Co.

The Ladies' Aid Society of the Advent church will serve ice cream and cake at Rutherford's Restaurant on Saturday afternoon and night. The following kinds of cream and cake will be served: Vanilla cream, pineapple cream, lemon cream; Lady Baltimore cake, cream layer cake, chocolate cake, devil food cake. Come one and all and help the ladies in this good cause, and don't forget the time and place.

Sometimes you may be told that there are other things just as good as DeWitt's Kidney and Bladder Pills. That's not so. Nothing made is as good as DeWitt's Kidney and Bladder Pills for any ailments of the kidney and bladder, which always result in weak back, backache, rheumatic pains, rheumatism and urinary disorders. A trial of DeWitt's Kidney and Bladder Pills is sufficient to convince you how good they are. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by all druggists.

The growth of this Bank is proof conclusive that its business is being conducted in a manner highly satisfactory to its thousand patrons. We would appreciate some of your business. : :
